User guides

Short guides to print and keep by the counter and in the office, each one or two A4 pages:

Guide	For	Print
Waiter	Log in, tables, ordering with Cold/Warm, Print, voids and requests, My sales	PDF
Cashier	Shifts, settling (cash, M-Pesa, card, split), reprints, pay-outs and drops, the cash-up	PDF
Supervisor	Approvals, voids and gifts, signing off cash-ups, closing and opening the day	PDF
Owner and admin	Menu, staff, permissions, terminals and printers, stock, cash book, reports, backups, licence, updates, training	PDF

Replace `[BUSINESS NAME]` and `[SERVER IP]` for each site before printing.

The pictures come from the demo business, taken by `tools/screenshots/capture.mjs guides`, and the PDFs are made by `tools/screenshots/guides-pdf.mjs` (docs/RUNNING.md, "Screenshots"). CI makes both on every push (the `screenshots` artifact).
